6 Interview with Colonel Lytes on the subject of his letter addressed to the Governor in respect to the Bank's retaining the amount of the unclaimed dividends on C. P. Stock out of the Cash Balance of the Co on the night of the 1<sup>st</sup> of Sept. Explained to Col. Lytes that the Clause 44 of the Act of 21<sup>st</sup> 22<sup>nd</sup> Vic: Cap 106 obliges the Bank to transfer the Cash Balance to an A/c to be intitled "The A/c of the Secy of State in Council of India" and that the Reservation in Clause 39 of the same Act "except the Capital Stock of the said Compy & the Dividend thereon" had no reference thereto.

Cgt on the contrary there were occasionally some inconsiderate attending his absence in the City, in particular the necessity at times of consulting the Agents' Dept for a second Clerk. Had not been consulted by the Governor as Mr Miller's proposed Advancement to be 1000 Cashier.

6 Mr. Stuth declines being put in nomination for the Deputy Chief.

As appears as his reason that he does not feel equal to the duties devolving on the Director of the Bank.

Mr. Mulcumbson wishes to postpone for a couple of years the Deputy Governorship, in consequence of his own business requiring at the present time all his attention. Two or four years hence he will probably be differently circumstanced and in that case he would desire to accept the Deputy Chief provided always his dearest wish was not considered an objection. Were the Chair held only for 1 year each in place of two it would be an additional inconvenience to some.

7 Mr. Stuth requires a few days for deliberation & to have time to consult with his Partner, Mr. Arbuthnot.

& Mr. Woolrych, Clerk to the Commr.

Present Mr. Cotton & Mr. Weymouth

The object of the Conference was to ascertain whether or no the Bank of England would be disposed to make the advance of the whole 3 Millions authorised to be raised by Act of Parli: 21 & 22 Cap 104 and if so at what periods for the advance & Redemption & in what sums and at what rate of Interest. The Deputation also desired to ask the advice of the Governors as to the most advantageous manner in their opinion to adopt for the raising of the Money whether by Bonds repayable at fixed periods or by Bonds to be redeemed by lot at fixed dates & for fixed sums. The Deputation also desired to know if the Bank would entertain a Proposal for the advance only of 1 Million in all 1859. The entire 3 Millions will probably be required between the 1st of the end of 1863 and a amount of a Quarter of a Million at a time. The Deputation were informed that the Question should be considered at tomorrow's

4 Mr. Gurney called to enquire if the Bank could advance the R. & L. Co £150,000 for 2 Years in 3 Payments of 50<sup>th</sup> each on the Company's Debentures & at what rate of interest. I answered that I thought the Bank would probably at 4 1/2% - subsequently the Governor (having spoken to Mr. Gurney) thought the rate would not be less than 4 1/4%.

5 Mr. Com. Mr. Stanley brought forward his Motion to substitute "may" for "shall" in the Resolutions of 1844 having reference to future Governors. The Motion withdrawn by leave.

6 Deputation from Municipal Board of Works. The Governor informed the Chairman of the Deputation Mr. S. D. Thwaites that for a Loan of 1 Million for 5, 7 or 10 Years the Bank's rate of interest would certainly be not less than 3 3/4 to 4 1/2%. He replied that the Board had reckoned on a much lower rate looking at the security. The Governor suggested that the Board & the Chair of the Ex. should determine the maximum rate to be offered & then to offer the Loan to the Bank but he did not encourage the Deputation to suppose that it would suit the Bank to make the advance under 3 3/4%.

Mr. Thwaites mentioned that across the intention of the Metropolitan Board to open a Savings Co at the Bank for the purposes of the "Main Drainage".

If decided in the Negative there would immediately be commenced Law Suits in the Colony by the Colonial Creditors to establish their preferential Claim. The Property in the Colony may be worth in Goods, Estates & Lumber about 100000 L. Mr Harrison calculates that possibly the entire assets of Hyde & Dodge may reach 80000 L which would give a div. of 8% of the L to the Creditors of H. & D. Co.  Street to day at 1 O'Clock.  
 5 The Governor absent.

6 12.30 Left the Bank to visit the Chancellor of the Ex.  
 7 1.55 Returned from Downing Street. The Chancellor says for  
 the Governor to consult with him as to the expediency of  
 offering the usual quarterly advances at a 1/2 % further  
 the minimum. He thought such an announcement might  
 give a little fillip to Trade which it had been represented to  
 him was in a very languishing state. I explained to <sup>Mr</sup> Mathew  
 what had passed at our Court on Thursday and that a  
 motion for the reduction of the minimum interest to 2 1/2 %  
 had been negatived by 6 to 15. I also stated that the question  
 of making the quarterly advances at a lower rate was also  
 adverted to but no motion was made. The Chm<sup>r</sup> gave it as his  
 opinion that as respects the minimum that the Bank had acted quite  
 right; and when he was informed that the C of India & Agents  
 of the Turkish Government were lenders of Money at 1/2 & 2 %  
 he begged that the question he had put might be considered as  
 withdrawn. He reminded me that he had a call upon the Bank for  
 a million. He was not sure that he might not want it. As I had  
 had no communication about the payments of the div: on L. Stock.

He should see the Secretary of State for India at 2.30 to day  
and he would ask him what was doing in the matter.  
He laughed at the idea that the E. I. Directors were to  
be paid for their services. Indeed he could not for  
himself see what object they had in view by offering  
themselves for election. Reference was made to the  
money to be raised for the Main Drainage of London,  
but it did not appear that up to present time any  
thing definitive was decided upon.

5 Long Conversation with Mr Brown of the Essex Bank Co in regard to Newport as a town for the establishment of a Bank of Eng. in place of Norwich. He promises to furnish me with some Statistical Information on which to form an opinion. Rescue Mining. Mr Charles Morgan claims 800000 in compensation for underground trespass on his Estates. Offers to compromise for the sum of 200000. The Mining badly managed. Requires reform, and a fresh Capital of 200000. The sum kind of which so much has been said will disappoint the Corns. It is too sulphureous & now that Locomotives are using Coal in place of Coke its returns will be greatly reduced. Mr H. is interested in the Rescue works for 1300000.
